

Free-Standing Mail Centers

ROTARY MAIL CENTERS USPS or PRIVATE ACCESS

Constructed of 16 gauge steel, 3100 series Rotary Mail Centers feature a vinyl finish available in five (5) contemporary colors. Aluminum style Rotary Mail Centers (#3100) are designed to accommodate a combination of five (5) aluminum rack ladder system mailboxes and data distribution system boxes (see pages 16-19). Brass style Rotary Mail Centers (#3150) are designed to accommodate a combination of two (2) brass or Americana style rear loading mailbox units (see pages 20-23). To operate, the user unlocks the unit and rotates the inner cabinet 180 degrees so that the rear of the mailboxes are facing the front (see below). After distributing the mail, the inner cabinet is rotated back 180 degrees to the tenant access position. A matching rear cover (#3125) is available as an option upon request. Heavy duty Rotary Mail Centers are ideal in locations where a secure and professional mailbox system is desired.

ROLL-A-BOUTS PRIVATE ACCESS

Made of 18 gauge steel, Salsbury 2300 series Roll-A-Bouts include casters for mobility and are useful when space is limited as wall construction is not required. Roll-A-Bouts are rear loading and feature a durable powder coated finish. Aluminum style Roll-A-Bouts (#2300) are designed to accommodate a combination of five (5) aluminum rack ladder system mailboxes and data distribution system boxes (see pages 16-19) and are powder coated black. Brass style Roll-A-Bouts (#2350) are designed to accommodate a combination of two (2) brass or Americana style rear loading mailbox units (see pages 20-23) and are powder coated tan. Units include a large rear door and are locked by placing a standard padlock (order optional keyed padlock #2390 - \$10.00) through a steel hasp and are an excellent way to add a private postal center to an existing business.
